

# Episode: 10,000 Years Before Contact

EXPLORING NORTH CAROLINA

## USEFUL VOCABULARY

archaeology

haft

Paleo-Indian

stratigraphy

### CHAPTER 1 (2:24-6:02)

1. What is the point of the story by James “Bo” Taylor?
2. What does “to haft” mean?” How does hafting determine how a stone point can be used?

### CHAPTER 2 (6:02-9:58)

3. Which is older: Stonehenge or the Native American archaeological sites in North Carolina?
4. List two reasons that people settled the land at the Hardaway and Doerschuck sites?
5. What is layered stratigraphy? How is it helpful to view it as a “layer cake”?

### CHAPTER 3 (9:58-14:27)

6. Describe the shape of the points from the Paleo-Indian period.
7. What was the lifestyle of the Archaic people?

8. Describe how the lifestyles of the Woodland people changed.
  
9. How did the Mississippian towns differ from Woodland villages?

**CHAPTER 4** (14:27-21:04)

10. Why was the Warren Wilson site a good location for Native Americans to settle?
  
11. What are “pits”? What might be found in them?
  
12. Based on archaeological study of the pits, what crops do we think Native Americans grew?

**CHAPTER 5** (21:04-end)

13. What was found at Pettigrew State Park that links us to the Native American past?
  
14. Why didn't the canoes rot?
  
15. Why do researchers think there might be evidence of earlier peoples at the Barber Creek site?
